

## GOV. HILL IN THE RACE AGAIN

Remoted That He Will Enter the Gubernatorial Contest.

## DR. BOTHWELL'S SERIOUS CONDITION.

The Cork Still in His Lung—Another Flood of Immigrants—The Hudson River Bridge—New York News.

NEW YORK BUREAU, Richmond Times, New York, April 30, 1891.

The Legislature adjourned to-day, and political circles are full of the rumor that Governor Hill has decided to enter the race for a third term this fall, and succeed himself as Governor.

This was decided upon yesterday at a conference held at Albany. Then the cry that Hill is the only Democrat who can carry New York will be echoed in the National Convention in 1892.

If the Legislature elected next fall is Democratic, Governor Hill may not resign the governorship until January 1st, but if it is Republican he can call an extra session for November and elect his successor to the Senate. It is conceded that the Governor has the Democratic situation well in hand, and the politicians say he is anxious to run again for the position which he now holds, so as to keep before the people while retaining his hold on the machine in this State.

**A FLOOD OF IMMIGRANTS.**  
The immigration authorities report that a large flock of immigrants were landed at the harbor office during April. The number for the month of April was 49,081. This month's arrivals were the largest known in any one month since 1882.

Word comes from Washington that the engineers' board have decided that the projected Hudson river bridge must be 150 feet high, and that the Secretary of War has approved the report. The East river bridge is 135 feet high.

**GOING BACK TO CHINA.**  
Tom Lee, the recognized leader of the Chinese colony in this city, after twenty-six years' absence from his native country, is going back to his native land on a mission which will embrace profit and pleasure. Tom Lee will begin his journey to-morrow, provided his passport from Washington arrives in time. About twelve years ago he married a German girl born near Philadelphia. He has had four children; two are dead. One of the other two—street merchants will accompany him, who is reputed to be worth between \$100,000 and \$150,000.

**DR. BOTHWELL'S CONDITION.**  
The Rev. Dr. George W. Bothwell, the man with the cork in his lung, was in a bad state today, after undergoing a severe and fruitless operation for the removal of the cork yesterday afternoon. He lost a great deal of blood, and it has been decided that the only way to get the cork out is to cut right in through the back to the spot, and remove the cork bodily, without the necessity of any new patent styles of instrument. The question is whether Dr. Bothwell will recover strength enough now to stand this serious operation. Health Commissioner Griffin said this morning that Dr. Bothwell's chances of recovery were not one in one thousand. At this stage, he said, the extraction of the cork would be a matter of the greatest difficulty, because the swollen condition of the membrane and the curvature of the bronchial tube.

**NEW YORK'S HEALTH.**  
A cursory examination of the annual report of the board of health shows that in point of health New York will favorably compare with any city in the Union. Notwithstanding the density of its population, and the fact that this city receives the bulk of immigrants arriving in this country, the death rate has steadily decreased from 24.11 in 1880 to 23.55 in 1890. The deaths in 1890 amounted to 49,192; the births to 39,290, a gain of 1,723. A notable feature of the statistics is found in the fact that the labor of charitable societies and newspapers in raising funds to provide rest and recreation for the children of the poor has been rewarded by a decline in the death rate of children under five years of age from 48.35 to 40.66. During the year 40,464 tenement houses, and 62,012 families were visited with the rapid recall of the board of health, and the result, however, that the peculiar, marshy odor of Croton water has been steadily increasing for the last three years, and that this increase is more marked since the introduction of a system of filtering similar to that which is used in London and other large cities.

**ANNEKE JANS' HEIRS.**  
A crop of rivals to the Anneke Jans heirs has newly sprung up in the Edwards' family, descendants of Robert Edwards, who came to this city from Wales in 1775 and bought sixty-five acres of land, which lies in what is now the heart of the metropolis, and last year King George III for a term of ninety-nine years. The new claimants to Trinity church property are headed by a Bank president, Thomas Edwards, of the People's National Bank at Independence, La. Mr. Edwards says the land bought by Robert, his great-grandfather, was leased in three separate parcels. Two of the leases have lately expired and the third will expire on May 4th next. This lease covers ground on which Trinity church now stands, and Mr. Edwards says the present occupants have made an offer to the heirs, but as it is too low he will not accept it. The heirs are estimated at 100, but he thinks that there are really not over seventy. The Edwards property lies on both sides of Broadway, takes in a part of Wall street and the A. T. Stewart stores, and a low estimate puts its value at \$200,000,000. The chances of their ever getting 10 cents of their claim are considered here as very slim. The claim is looked upon as a myth.

**WALL STREET RUMORS.**  
A gentleman largely interested in South Carolina railroad securities says: "The earnings of this road were never so large as they are now. The receiver has spent large sums for steel rails and improvements, and the property is in excellent physical condition. Rates are on a paying basis, and business has greatly increased over last year, especially the cotton business. The receipts of cotton at Charleston alone increased 162,000 bales since September 1st, compared with last year. Charleston is becoming one of the great seaports. It has 19 feet of high water on the bar, and the jetties will give it 22 in a short time. South Carolina railroad securities do not reflect the improved condition of the road and the country. The securities in 1883 sold at par and the incomes at 70. To-day the securities are selling at 70, with 100 per cent. over due interest payable next year, and the incomes at 22."

**Earnings.**—Statement Norfolk and Western for the month of March shows: Gross, \$726,000; expenses, \$498,380; net, \$227,700; increase, \$10,227. Richmond and Danville system: Total work of April, 1891, \$209,200, 1890, \$207,350; increase, \$1,850. Three weeks of April, 1891, \$821,450, 1890, \$734,700; increase, \$86,750.

**PERSONAL AND GENERAL.**  
William R. Roberts, ex-Minister to Chili, is reported to be at the point of death at his home in this city. Pareisis is said to be the nature of his malady, which began to assert itself several months ago.  
Among the recent Southern arrivals at the Morton House from Richmond are Mr. G. Gibson, Jr., and C. H. Phillips; Gentry House, J. M. Guodine; Brunswick, M. E. Miller; from Roanoke—New York, J. G. Kierhall; from James, H. H. Woodron.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

For Malaria, Liver Trouble, or Indigestion, use BROWN'S IRON BITTERS.

Every Mother should see that her little ones are protected, and that a bottle of Dr. David's Cough Syrup is at hand to cure in case of Croup, Coughs or Colds.

## INSURANCE STATEMENT.
